Representative Steve Conway  
Chairman  
Select Committee on Pension Policy  
JLOB 307  
Olympia, WA 98504

Dear Chairman Conway:

Unfortunately during the 2004 session, HB2914 was held up in House Appropriations and no further action was taken on this piece of legislation.

HB 2914 deletes the sixty percent cap on retirement allowances from the law enforcement officers' and fire fighters' retirement system plan 1. Although this seems pretty straight forward, I would respectfully request that HB2914 be put on the list of subject for an interim study. I can assure the committee that I could provide many, willing to testify on HB2914's behalf.

Thanking you in advance and should the Chairman or Committee wish further information, please feel free to contact me any time.

Sincerely,

JEROME DELVIN
